Sheet Metal Contractors • Sheet Metal Workers Local 20

Evansville • Ft. Wayne • Gary • Indianapolis • Lafayette • South Bend • Terre Haute

**PRE-APPRENTICE CLASS:** This class is designed to give the Pre-Apprentice a better knowledge of the skills required to be a Sheet Metal Worker. Some of the topics covered will be basic construction safety, hand skills, basic metals, basic math/calculator skills, basic blueprint reading. Upon completion, the participants will receive two education points toward their ranking on the Apprentice Eligibility list. Highly recommended for all Pre-Apprentices!

**WELDING:** This class will feature GMAW, SMAW, and GTAW. Participants will be practicing a lot of hands-on exercises and procedures working towards certifications.

**FIRST AID:** This class will cover First Aid as it relates to the construction industry.

**CPR:** Members will receive a CPR (cardiopulmonary resuscitation) certification upon completion of this class
