**GMAW:** Includes the fundamentals of Gas Metal Arc Welding (GMAW) theory and hands on exercise. Materials welded will be carbon steel, stainless steel, and aluminum. The beginning of the class will allow the participants to practice, going through a series of exercises, and the class will finish with a welding procedure review, practice time, and may have the opportunity to earn an AWS D9.1 Certification.

**BASIC AUTOCAD:** Learn the basic commands and fundamentals of AutoCAD. Progress of the class is subject to the ability of the students and will gear towards HVAC duct drawings. Basic computer skills are a requirement.

**ALLEN COUNTY LICENSE TEST:**

This class will prepare the student to take the Allen County License Journeyman Sheet Metal exam. Reference materials and books will be provided.

**ARERIAL LIFT TRAINING:**

This class outlines general, operating, maintenance, and inspection of aerial lifts and elevated work platforms.

**CONFINED SPACE TRAINING:**

Training for workers for safety and precautions when working in and around confined working spaces with limited entry or exit.

**FIRST AID:** This class will cover the First Aid as it relates to the construction industry.

**CPR:** Members will receive a CPR (cardiopulmonary resuscitation) certification upon completion of this class.
