GMAW: Includes the fundamentals of Gas Metal Arc Welding (GMAW) theory and hands on exercise. Materials welded will be carbon steel and stainless steel. The beginning of the class will allow the participants to practice, going through a series of exercises, and the class will finish with a welding procedure review, practice time, and may have the opportunity to earn an AWS D9.1 Certification.

FOREMAN TRAINING: The purpose of this course is to give you a better understanding of what it takes to be a sheet metal foreman, and to give you a solid base of knowledge if you choose a career as a foreman.

CPR: Members will receive a CPR (cardiopulmonary resuscitation) certification upon completion of this class.

FIRST AID: This class will cover the First Aid as it relates to the construction industry.
